# HOW TO MEASURE FOR PROPER FIT

## Steps for Measuring Women

1. **Sleeve:** Bend elbow. Measure from the center of the back of the neck, across the shoulder and around the point of the elbow to the wrist bone.
2. **Bust:** Measure under the arm and around the fullest part of the bust over a normal bra. This is not a bra size.
3. **Waist:** Measure around the smallest part of the natural waist. (Usually this is smallest part of the waist.)\*
4. **Hips:** Measure around the fullest part of the hips.
5. **Inseam:** Wearing well fitted pants measure along the inner seam from the crotch to the bottom of the leg.
6. **Height:** Stand without shoes with heels against the wall. Place a ruler across the top of the head against the wall. Measure from that point down to the floor.

## Steps for Measuring Men

1. **Neck:** Measure from the middle of the back of the neck, around the widest part of the neck to where the tape originates.
2. **Sleeve:** Bend elbow. Measure from the center of the back of the neck, across the shoulder and around the point of the elbow to the wrist bone.
3. **Chest:** Measure across the shoulder blades, under the arms and across chest.
4. **Waist:** Measure around the smallest part of the natural waist.
5. **Seat:** Measure around the fullest part of the seat.
6. **Inseam:** Wearing well fitted pants measure along the inner seam from the crotch to the bottom of the leg.
7. **Height:** Stand without shoes with heels against the wall. Place a ruler across the top of the head against the wall. Measure from that point down to the floor.

*\*Please refer to size chart notes on pages 58-60 for measuring tips on women. Women's pant rises vary.*

## Order Your Fit Lines for Proper Sizing

The best tool for accurate sizing is a *Fit Line*—a collection of sizes of a style or styles that will help you and your buyer take the guesswork out of sizing.

Many distributors will purchase a full *Fit Line* of the most popular styles they sell for their sales tool kit. A savvy buyer will request a *Fit Line* to insure accurate sizing, save time and reduce the possibility of returns later. Ask about a *Fit Line* for your next uniform program presentation. See sample *Fit-Lines* below.

Full Fit Line Men's Blazer	34	36	38	40	42	44	46	48	50	52	54	56	58	60
Half Fit Line Men's Blazer*	34		38		42		46		50		54		58	

Full Fit Line Women's Blazer	2	4	6	8	10	12	14	16	18	20	22	24	26	28
Half Fit Line Women's Blazer*	2		6		10		14		18		22		26	

Full Fit Line Men's Pants	28	30	32	34	36	38	40	42	46	48	50	52	54
Half Fit Line Men's Pants*	28		32		36		40		46		50		54

\*For Half Fit Lines: drop the smallest or largest size depending on the median size of your group.

Fit Lines for women's pants: Styles vary depending on rise. See charts on page 58 for styles with varying rises.

# THE FINAL DETAILS: BRAND YOUR UNIFORM PROGRAM

## Step 1: Logo EMBROIDERY

Your logo represents your business at a glance. It is your business insignia. A symbol of your unique brand. Our state-of-the-art embroidery machinery will give your logo dimension, texture and color to truly stand out and make an impression.

## Step 2: Indicate Your Thread Preference

Indicate where the color breaks are on a color copy of your logo. A maximum of 9 thread colors are available. Please provide PMS colors for accuracy.

## Step 3: Choose Logo Placement

See examples below. Call about other logo locations.

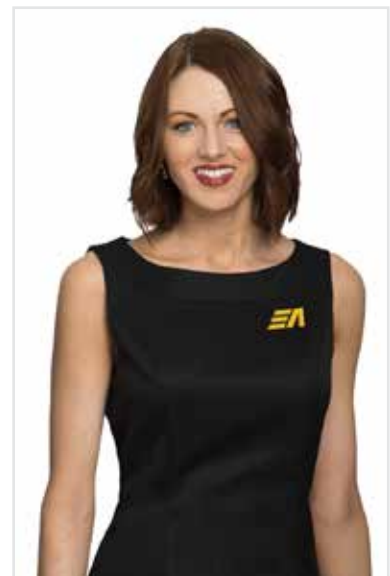

## Step 4: Submit Your Logo Artwork

Please submit .DST files for embroidery.  
We will convert digital files from other applications for an additional fee.

Files accepted for conversion (additional fee):

Embroidery application files: .EMB, .EXP  
Vector application files: .AI, .EPS  
Raster application files: .TIF, .BMP, .JPG, .PSD

Please also provide a copy of the logo for a visual reference.  
(business card, letterhead, laser copy, etc.)

# THE FINAL DETAILS: CUSTOMIZE YOUR UNIFORM PROGRAM

## Option 1: Customize In-Stock Apparel for a Unique Look that Fits the Budget

If your customer is looking for something unique but has a tight budget, recommend customization of in-stock garments. Once branding and logos have been decided on, consider button changes, colorful trims or stripes, epaulets, or any distinctive flair that works with their brand.

## Option 2: Develop a Unique Custom Uniform Program by Following These Steps

### Step 1: The Brief

Client briefs us of what they want. They include sketches, photos and examples of logos for color and branding. Project timelines are discussed.

### Step 2: Research and Sourcing

Our team gathers all relevant materials for your project by reviewing our extensive archived pattern library and fabric collections.

### Step 3: Samples are Presented

Swatches and patterns are approved and sampling begins. Revisions are made and a final design is agreed upon.

### Step 4: Production

Final execution of the approved idea. Undivided attention is paid to all the details in your specs. Constant communication between development team and factory facilitates smooth production.

### Step 5: Delivery

Your Custom Uniform Program is shipped on-time to your customer. Enjoy the accolades and re-orders!
